Jobs Report:

Revised February and Preliminary March Jobs Figures Released

Indianapolis, Ind.—Today the Indiana Department of Workforce Development released revised February and preliminary March 2005 payroll employment figures for the state.

Indiana's seasonally adjusted job figures reported a revised total of 2,963,000 jobs for the month of February, while March preliminary data reported an increase of 4,000 jobs over the previous month.

Ron Stiver, Commissioner of the Department of Workforce Development, stated, "We are very pleased to see this preliminary job growth for the month of March, however much work lies ahead if we are to recapture Indiana's remaining lost jobs. While the US reached peak employment in March, Indiana is approximately 46,800 jobs shy of our peak reached in May of 2000. Governor Daniels is committed to continuing to act quickly and boldly to grow Hoosier jobs."

Seasonally adjusted figures:

The nation's seasonally adjusted figures for March reported the U.S. has reached its peak employment with the addition of 110,000 jobs over the previous month, as well as an increase of 2,140,000 jobs since March 2004. Of that growth, Indiana gained 4,000 jobs during February and 50,000 jobs from a year ago. Meanwhile, Indiana remains down 46,800 from its peak in May of 2000. The number of jobs in Indiana according to February revised data was 2,963,000 and is up a total of 58,000 from February 2004, whereas March preliminary figures were 2,967,000.

Non-Seasonally adjusted figures:

Indiana's March preliminary non-seasonally adjusted payroll estimates reported 2,947,400 job for the state. This figure marks an increase of 17,900 jobs from February's total of 2,929,500. Examining at year to year data, March's job total marks an increase of 56,400 over March 2004. February's revised total marks an increase of 72,200 jobs from February 2004.

Non-Seasonally adjusted Metropolitan Statistical Areas:

Analyzing preliminary job figures in the state's Metropolitan Statistical Areas (MSA), the Anderson area remained unchanged for the month of March compared to February but has added 400 jobs from a year ago. Bloomington's metropolitan statistical area witnessed an increase of 500 jobs for the month of March, while the Columbus area remained relatively unchanged for the month and added 100 jobs, however the Columbus area has increased a total of 1,700 jobs in comparison to a year ago. Also, Elkhart reported its total of 130,300 jobs, which is an increase of 400 jobs from February and 6,800 jobs from a year ago.

Evansville reported an increase of 1,000 jobs for the month bringing their March non-seasonally adjusted total to 176,700. Fort Wayne reported the addition of 1,200 jobs for March and is also reporting an increase of 1,200 jobs from a year ago, while Gary reported a total of 274,100 jobs which is an increase of 1,800 jobs from February and an increase of 4,000 from a year ago. The Indianapolis jobs total for March increased by a total 7,500 and by a total of 20,900 from a year ago. Meanwhile, Kokomo remained relatively unchanged and added 100 jobs for the month of March reporting their job total to be 48,500.

The Lafayette MSA reported a decrease in jobs by 400 for the month of March, yet their total from a year ago reports an increase of 1,100 jobs. Michigan City increased by 100 jobs for the month of March, while Muncie added 400 jobs for the month of March with a reporting total of 54,500 jobs. The South Bend MSA reported their total 145,600 jobs leading to an increase of 1,100 for the month and has added 3,200 jobs from March 2004, while Terre Haute posted a jobs total of 75,000 and 200 from the previous month and 600 from a year ago.

The Indiana Department of Workforce Development is charged with continually improving the Hoosier workforce by assisting companies to create new jobs and improve employee skills. The agency offers a variety of training and educational grants, partners with Indiana's 27 WorkOne Centers, administers the unemployment insurance system, provides labor market information, assists employers with preparing workers for layoffs and closures and operates a statewide job placement service.

Technical Notes:

- Payroll employment is calculated through a monthly survey of 7,500 Hoosier employers and is based on reported payroll figures. It is an estimate of non-agricultural jobs in Indiana businesses and does not include self-employed or agricultural workers.
- The survey that calculates the payroll employment estimate is conducted by the U.S. Bureau of Labor Statistics and is conducted during the week of the 12th of the month.
- In calculating employment figures, two different types of calculations are provided. The first, *non-seasonally adjusted*, provides information without taking into account the effects of seasonal trends. In calculating the *seasonally adjusted* information, employment that follows more or less a regular pattern each year, including holiday or summer employment is factored out of the estimate. The adjustments make it easier to observe the cyclical and other non-seasonal movements.
- For most accurate analysis, please use revised data sets and not preliminary estimates
